## Before School Checklist

Use this checklist to keep track of all the things you need to do before you head to school!

### Wake up on time!

Get up at a time that gives you enough time to get ready without having to rush out the door. If you feel like you're not getting enough rest, try going to sleep earlier!

### Prepare for your day!

Think about your schedule for today. Do you have any tests? Is there something happening after school? Knowing what to expect can help your day go smoothly!

### Get clean and dressed!

This includes taking care of your hygiene. Shower, brush your teeth, comb your hair, and make sure that your clothes are neat.

### Eat breakfast!

Eating breakfast helps keep you energized during the day. Eat something that will keep you full until lunchtime!

### Morning Chores!

Are there any chores that you are responsible for in the morning? This might include making your bed, feeding your pet, or cleaning up your room.

### Pack up!

Before you leave the house, you want to make sure that you have everything packed that you'll need for school.

### Leave on time!

Having to rush out the door is stressful! Give yourself enough time to make it to the bus stop or to get dropped off without being late.

## Social Interaction

As your child/ward transits from Middle Primary Level to Upper Primary Level this year in a brand new class, he/she will have to build relationships with diverse individuals and groups. Besides knowing how to make new friends, he/she will also work with their peers in a team where ideas are abundant and varied. He/she will have to apply social skills where they will have to negotiate with others and resolve conflicts. He/she will need to know how to explain their views calmly and clearly, as well as listen carefully to their peers' perspectives. Espousing one of the school values "Teamwork is Our Culture", he/she will work together on the task assigned to him/her.

These are social norms which students will have to use in their day-to-day interactions with others at school or even at home. Such skills involve both verbal and non-verbal cues, like facial expression, body language and gestures.

## Help your child succeed in life

Our children do best when schools and parents work hand in hand to support them. Here are some tips to make this happen...

### Work with the school to know and support your child

- Have regular conversations with teachers in both academic and non-academic areas - this will help you better guide your child's development.
- Check the teachers' preferred mode of communication - they are not required to share their mobile numbers.
- Understand that teachers may not be able to respond to your queries immediately.

### Help your child relate to others

- Work with the teachers to help your child respect differences and resolve disagreements amicably.
- Let the school verify the facts in any incident before taking action to ensure a fair, objective outcome for all parties.

### Help your child develop good habits

- Create a conducive home environment for your child to enjoy reading and to finish his/her homework by himself/herself.
- Encourage your child to live a healthy, balanced life with time for sleep and play.

### Help your child manage himself/herself

- Guide your child in managing his/her time.
- Encourage your child to help out with household chores.
