Before School Checklist

Use this checklist to keep track of all the things you need to do before you head to school!

M T W Th F

Wake up on time!

Get up at a time that gives you enough time to get ready without having to rush out the door. If you feel like you're not getting enough rest, try going to sleep earlier!

Prepare for your day!

Think about your schedule for today. Do you have any tests? Is there something happening after school? Knowing what to expect can help your day go smoothly!

Get clean and dressed!

This includes taking care of your hygiene. Shower, brush your teeth, comb your hair, and make sure that your clothes are neat.

Eat breakfast!

Eating breakfast helps keep you energized during the day. Eat something that will keep you full until lunchtime!

Morning Chores!

Are there any chores that you are responsible for in the morning? This might include making your bed, feeding your pet, or cleaning up your room.

Pack up!

Before you leave the house, you want to make sure that you have everything packed that you'll need for school.

Leave on time!

Having to rush out the door is stressful! Give yourself enough time to make it to the bus stop or to get dropped off without being late.

- No mobile phones are allowed unless permission has been granted.

Growth Mindset

As your child/ward transits from P5 to P6, he/she will face a higher level of academic rigour and demand. This is when he/she will have to adopt a growth mindset by maintaining an optimistic attitude to overcome new challenges. He/she will have to demonstrate emotional strength by showing courage and adaptability when challenged.

Last year, your child/ward attended an enrichment programme which exposed him/her to learning beyond the classroom to develop confidence in himself/herself, as well as become self-directed and responsible while using the growth mindset as a tool. They also learnt that when they change their mindset from fixed to growth, it could lead to increased motivation and achievement.

Since these are important life skills for your child's/ward's future, parents/legal guardians could help by being a good role model in practising them during your interactions with him/her.

Positive School-Home Partnership

Guidelines for Positive School-Home Partnership

Help your child succeed in life

Our children do best when schools and parents work hand in hand to support them. Here are some tips to make this happen...

Work with the school to know and support your child

- Have regular conversations with teachers in both academic and non-academic areas - this will help you better guide your child's development.
- Check the teachers' preferred mode of communication - they are not required to share their mobile numbers.
- Understand that teachers may not be able to respond to your queries immediately.

Help your child relate to others

- Work with the teachers to help your child respect differences and resolve disagreements amicably.
- Let the school verify the facts in any incident before taking action to ensure a fair, objective outcome for all parties.

Help your child develop good habits

- Create a conducive home environment for your child to enjoy reading and to finish his/her homework by himself/herself.
- Encourage your child to live a healthy, balanced life with time for sleep and play.

Help your child manage himself/herself

- Guide your child in managing his/her time.
- Encourage your child to help out with household chores.

Our children succeed when parents
and schools work hand in hand.
